

European Policy Statement 2021-2027

The Higher School of Strategic Planning in Dąbrowa Górnicza (WSPS) has been providing non-public communication on insurance since 2004. The WSPS educates on the first degree studies: nursing, emergency medical services, and on the second degree studies, nursing and public health. In WSPS there are also courses, training, postgraduate and postgraduate education for nurses and medics. WSPS was the first non-public medical student university in southern Poland. Participation of the Higher School of Strategic Planning at the Erasmus University (ECHE 2027 card) is one of the fundamental goals of WSPS. Knowledge exchange and transfer allow other establishments to experience historical and qualitative experience. The goal of WSP is to shape learning that open up new possibilities for collaborative international connectivity. The implementation of the projects will be in full compliance with the rules and the state of the Erasmus + program. The WSPS internationalization strategy with participation in the Erasmus + program assumes, among others: -Increase in utility activity (student exchanges, research conferences, etc.) -Realizing of Erasmus+ Values (equality of non-discrimination policy, equality etc.) -Education of universities in undertaking international initiatives (willingness to study travel, education as part of student exchange). - expanding the range of possibilities. The current information on the internationalization process of the University can be found:
